

For The Love Of Grand Lake!

If you love the Grand Lifestyle, the last five years of turmoil between the various interest groups has to make us all question what the future of Grand Lake has in store. Most of the headlines have been grabbed by the pro-development-at-any-cost group or the no-development-whatsoever group that claims to know what's best for you and me, despite the fact they never ask for our input.

Are the average Grand Lakers, the ones who enjoy the beauty, the commercial amenities and boating and living on the most user friendly lake in the nation, going to stand by and let a few dictate the future of Grand Lake? Isn't it time the "Silent Majority" mobilized to have a voice in the influencing the future of Grand Lake?

If you share some of my concerns in preserving the Grand Lifestyle for future generations, I would urge you to consider joining me in a new organization committed to doing just that. The goal of Grand Lakers United Enterprise is to attract moderate thinking Grand Lakers who favor managed growth while protecting the environment and water quality.

“I want our organization to be a united voice for those of us who believe a marriage between development and environmental preservation is possible, and that water quality is the responsibility of all that enjoy what our lake has to offer.”

I'll be attending a majority of meetings addressing lake related issues and getting the word out. Our members will enjoy a user friendly web site at www.grandlakersunitedenterprise.com where issue related information will be readily available; or I can be contacted via e-mail with concerns, questions or requests. A monthly newsletter will be supplemented by broadcast e-mail alerts and reports when required.

. We're just starting to roll and would love to have your participation. Our plan calls for three levels of membership for commercial plus an individual option for \$100.00 per year. Membership applications are available on our web site.

Our office has been established at Grand View Landing on Highway 82, north of Langley. If you have further questions, I can be reached by phone at 918-782-7710 or e-mailed at rustyflaming@wavelinx.net
